

Updates to the BIS Landing Page – New ‘Work Lists’

What’s changed?

The patient lists on the landing page look a little different: we’ve added a ‘**Maternal Work List**’ and ‘**Child Work List**.’

New Work Lists

Maternal Work List | Child Work List | Patient Records

Maternal Records

Click the Green Plus Sign to add an encounter

Red Flag = encounter in draft

Green Check Mark = encounter successfully submitted

?? Join us for Q & A sessions on March 2nd and 3rd at noon.
 Dial: 1.866.479.5669 Code: 3738086#

How will these new work lists help me?

- ✓ Access your encounters more easily
- ✓ See encounter status and links between maternal and child records at a glance

Note: Work lists are the first step in a bigger plan to make data submission easier.

How do the Work Lists Function?

- ✓ If a colleague at your hospital has started a record for a patient, **the patient will appear on the work list** for a period of time.
- ✓ If a record has NOT been started at your hospital, create the record as you currently do.
- ✓ If one or more encounters for the patient are in draft, the record sits on the work list as a reminder it needs to be completed. When all encounters are submitted, the record drops off the list (within 24 hours).
- ✓ If you don't want to scroll through a long list of patient records, use the 'Patient Search' function (i.e. enter an OHIP number), to short-list the patient you want.

Complete a 'Patient Search' to short-list to the record you need
