

BORN Information BITS

MIDWIFERY SERIES – ACTIVE PRACTICE REPORTS

This update was developed in response to questions received recently about these reports:

- Only midwives with a billing number in the BORN Information System (BIS) **AND** access under Administration : User Management with Data Entry selected can run the two Active Practice Reports. Check with your practice group Local Administrator.
- Practice Administrators do NOT have access to this report.
- The two reports are available in the BIS at Reporting : Administrative Reports.
- **Active Practice Report** – newborn dates of birth April 1, 2012-present
- **Active Practice Report (Legacy)** –newborn dates of birth April 1, 2006 – March 31, 2012
- Planned place of birth is listed using the following scenarios:
 - 1) BLUE HIGHLIGHTED BELOW: The number 1 is displayed under Planned PoB and Actual PoB because this client planned a homebirth and actually gave birth at home.
 - 2) YELLOW HIGHLIGHTED BELOW: This client planned a homebirth but actually gave birth at hospital. The report puts a 0 under the hospital planned PoB column, because it was not a planned hospital birth.

Original Document:

The BORN Information System (BIS) has incorporated **two** Active Practice Reports to support midwifery users in meeting their College of Midwives of Ontario reporting.

1. **Active Practice Report** - Courses of Care (CoC) entered into BIS – newborn dates of birth from April 2012 forward
2. **Active Practice Report (Legacy)** – Courses of Care entered into OMP Maternal Newborn Reporting System (previous system) – newborn dates of birth from 2006 – March 2012

The reports are generated to list all Courses of Care, by place of birth, where the midwife was the primary or secondary midwife.

Who can generate this report?

Any Midwife with a billing number in the BIS and data entry permissions can run this data for his/her own courses of care. These reports are not available at the practice group level or to practice administrators. The midwife user must have access to data entry in the BIS in order to generate the report. BIS Local Administrators can enable access to data entry. Midwife users can confirm access to the report by checking under Reporting : Administrative Reports: Midwives Active Practice.

What information is provided in the Active Practice Reports?

The information contained in these reports includes Client Code (CC) and midwifery practice group (MPG) number where the midwife is the primary or secondary attending midwife, by actual place of birth. Where the midwife was the primary attending midwife, the client's planned place of birth (at the beginning of intrapartum period) is also listed.

In the example report below, for CC 1235, the user should follow across the columns. The midwife pulling the report was the primary attending midwife at this birth.

Because this midwife was primary, both the planned and actual Place of Birth (POB) is displayed. This Client planned a hospital birth and actually gave birth at the hospital. If the planned place of birth had been home, it would have been listed as zero.

Where the midwife pulling the report was the second attending midwife, the planned Place of Birth is not displayed. Both planned and actual Places of Birth are listed for the primary midwife ONLY.

Distribution of courses of care (CoC), by place of birth (PoB) and role of midwife

Midwife Last Name, First Name - xxxx (Billing Number), courses of care for clients with infants born between 01-Jan-2012 to 05-Nov-2012

Infant DOB	Client code	CoCs - women who delivered at home			CoCs - women who delivered in hospital			CoCs - Actual PoB Other	
		Actual PoB MW Primary	Actual PoB MW Second	Planned PoB MW Primary	Actual PoB MW Primary	Actual PoB MW Second	Planned PoB MW Primary	Actual PoB MW Primary	Actual PoB MW Second
		n	n	n	n	n	n	n	n
2011-2012		1	0	1	3	1	3	0	0
Jan 2012		0	0	0	1	1	1	0	0
	1234/MPGabc	0	0	0	0	1	0	0	0
	1235/MPGabc	0	0	0	1	0	1	0	0
Feb 2012		0	0	0	0	0	0	0	0
		0	0	0	0	0	0	0	0
Mar 2012		1	0	1	2	0	2	0	0
	1236/MPGabc	0	0	0	1	0	1	0	0
	1237/MPGabc	1	0	1	0	0	0	0	0
	1238/MPGabc	0	0	0	1	0	1	0	0

PoB = Place of Birth
 MW = Midwife
 DOB = Date of Birth
 CoC=Course of Care

Actual PoB = Actual Place of Birth
 Planned PoB = Planned Place of Birth

Note : These reports support the College reporting requirements. The reports do not remove Transfers of Care. They provide a list of all the Courses of Care where midwives have been listed as the primary or secondary midwife from April 2006 by place of birth.

What parameters are used in the Reports?

Both Active Practice Reports are queried using newborn date of birth. These reports are queried by midwife name and will include affiliations at more than one practice group.

How do we generate the Active Practice Reports?

Midwife users with access to data entry can run the Active Practice Reports. Practice Administrators with access to practice level reports will NOT be able to run these Active Practice Reports.

Midwife users (with a billing number listed in the BIS):

Go to Reporting : Administrative Reports

The current system report is named Midwives Active Practice.

The previous system report is called Midwives Active Practice Legacy.

With Excel - CLICK on the + signs to the left of the document on screen

Reminder:

The Active Practice Reports do not meet all the College Reporting Requirement:

The current Active Practice Reports DO NOT flag Transfers of Care from Midwifery Care. The reports list all Courses of Care where the midwife was the Primary or Secondary midwife by Place of Birth.
