

Early health. Lifelong health.

Début en santé. Longue vie en santé.

# **BORN Ontario: Sonographer Training Guide**

## **Accessing the Nuchal Translucency Quality Assurance Report**

**January 2014**

# Logging into BORN

---

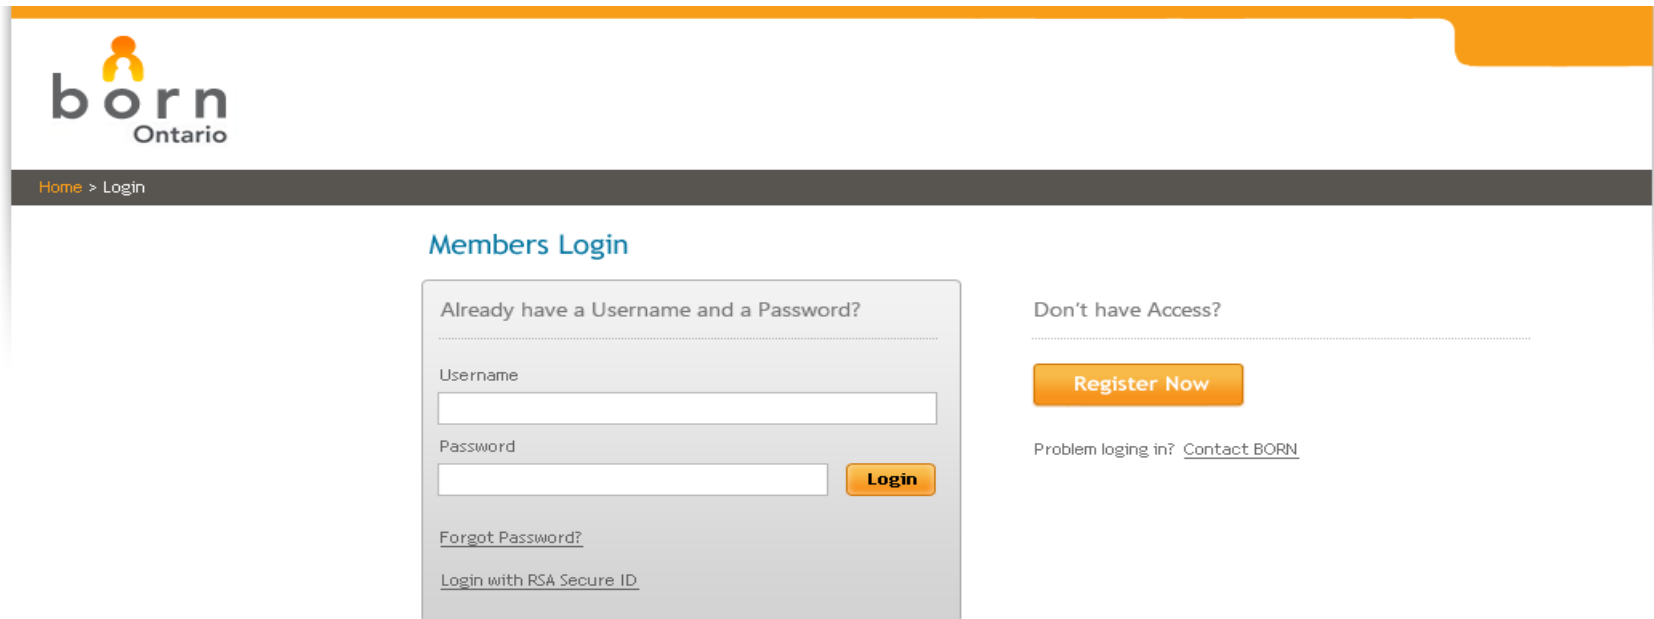

- There are two ways to log into the BORN Information System
  - A. From within a birthing hospital (already a BORN site)
  - B. From any other site, including non-birthing hospitals and Independent Health Facilities (IHF's)

# A. Logging in from a Birthing Hospital

Go to the BORN website

<https://my.bornontario.ca>

1. Enter your Username
2. Enter your password
3. Click the Login button

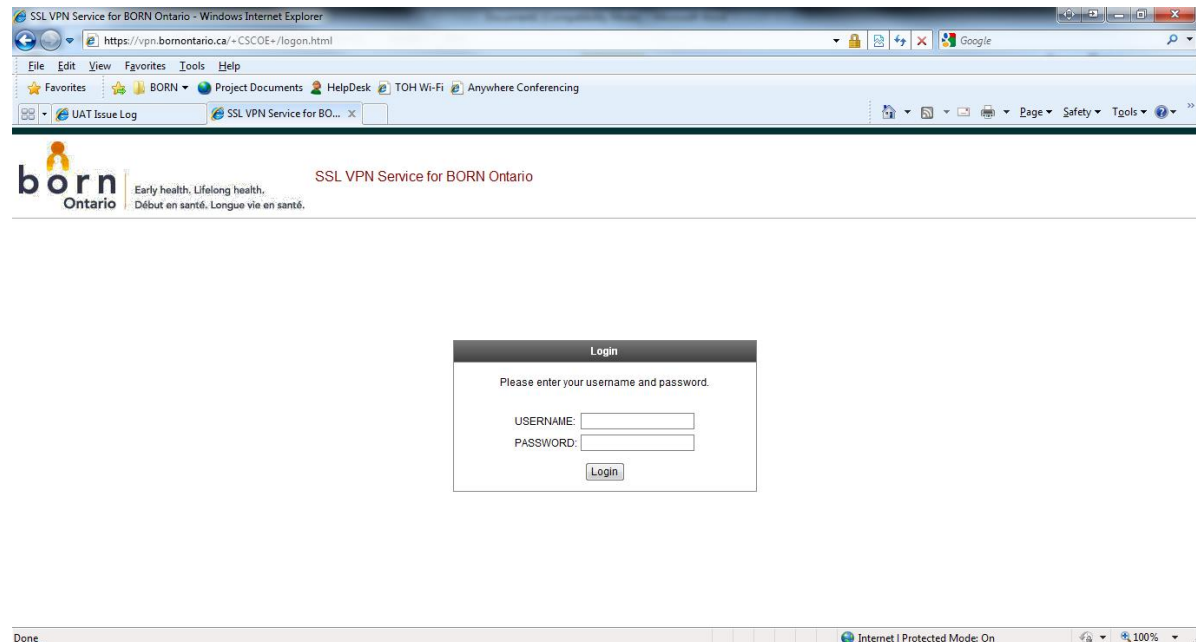

The screenshot shows the BORN Ontario website's login interface. At the top left is the BORN Ontario logo. Below it is a breadcrumb trail: Home > Login. The main heading is "Members Login". On the left, there is a login form with the heading "Already have a Username and a Password?". It contains two input fields: "Username" and "Password", followed by an orange "Login" button. Below the form are links for "Forgot Password?" and "Login with RSA Secure ID". On the right, there is a section for "Don't have Access?" with an orange "Register Now" button and a link for "Problem logging in? Contact BORN".

# B. Logging in from a Non-birthing Hospital or IHF (1)

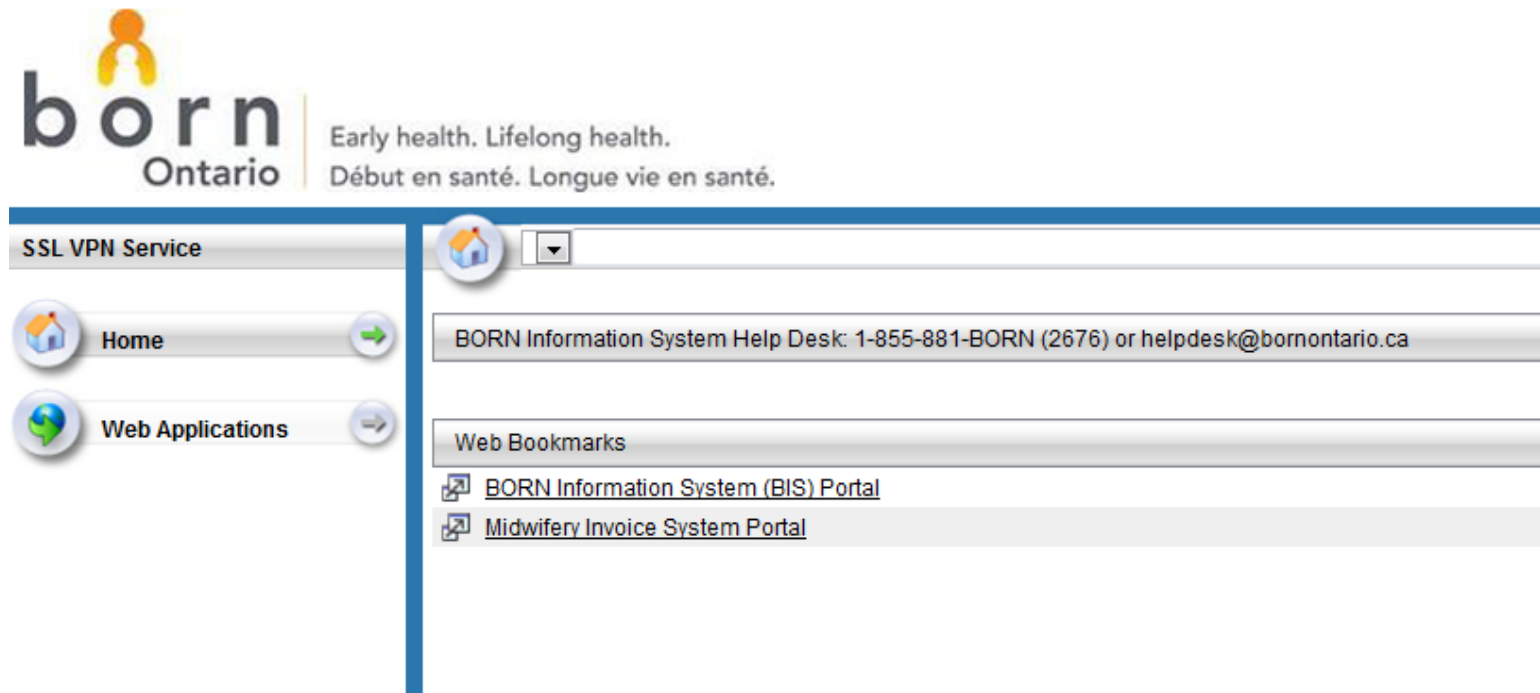

If you have received your Username and Password :

1. Go to the BORN website <https://vpn.bornontario.ca>
2. Enter your Username
3. Enter your personal Password
4. Click the Login button

# B. Logging in from a Non-birthing Hospital or IHF (2)

- Click on **BORN Information System (BIS) Portal** link under Web Bookmarks.

The screenshot displays the BORN Ontario website interface. At the top left is the BORN Ontario logo, featuring a stylized orange and yellow figure above the text "born Ontario". To the right of the logo is the tagline "Early health. Lifelong health." and its French equivalent "Début en santé. Longue vie en santé." Below the logo is a navigation bar with a blue header. On the left side of the navigation bar, there are three main menu items: "SSL VPN Service", "Home", and "Web Applications". The "Web Applications" item is currently selected, and its sub-menu is open, showing a list of "Web Bookmarks". The first bookmark is "BORN Information System (BIS) Portal", which is the link mentioned in the instructions. The second bookmark is "Midwifery Invoice System Portal". To the right of the navigation bar, there is a search bar and a dropdown menu. Below the navigation bar, there is a "BORN Information System Help Desk" section with the contact information "1-855-881-BORN (2676) or helpdesk@bornontario.ca".

# B. Logging in from a Non-birthing Hospital or IHF (3)

You will then be taken to the Members Login screen

1. Enter your Username
2. Enter your personal Password
3. Click the Login button

**born**

Welcome NTQA Test - NTQA Sonographers

**Announcements**

Title	Date Posted
No records to display.	

Page size: 10 0 items in 1 pages

- The NTQA report is found in the “reporting” area of BORN. This can be accessed through either the left or top menus.

# REPORTING

- The NTQA report is accessed through the “Clinical Reports” tab

The screenshot shows the 'born Ontario' Reporting page. At the top, there is a navigation bar with 'Reporting' and 'My Profile' links. Below this, a breadcrumb trail reads 'Born Staging Portal > Reporting'. The main heading is 'Reporting', with a note recommending IE 8 or Google Chrome. A tabbed interface shows 'Dashboards' and 'Clinical Reports', with the latter selected and highlighted by a red arrow. A message states: 'Please select reporting periods from April 1, 2012 onward. Enhancements are underway to ensure NIDAY Legacy data is populated in reports.' Under the 'PSO Reports' section, there is a table with columns 'Report Name', 'Description', and 'Report U'. The first row contains 'PSO NTQA Sonographer', 'PSO NTQA Sonographer', and 'One day I'. The 'Report Name' cell is circled in red. Below this is the 'Analysis Reports' section, which is currently empty with the message 'No records to display.'

---

Getting Started with NTQA Reporting

# RUNNING YOUR NTQA REPORT

# Selecting Filters

- The user must select the filters for the report to be run

PSO NTQA Sonographer

Start Date:   End Date:

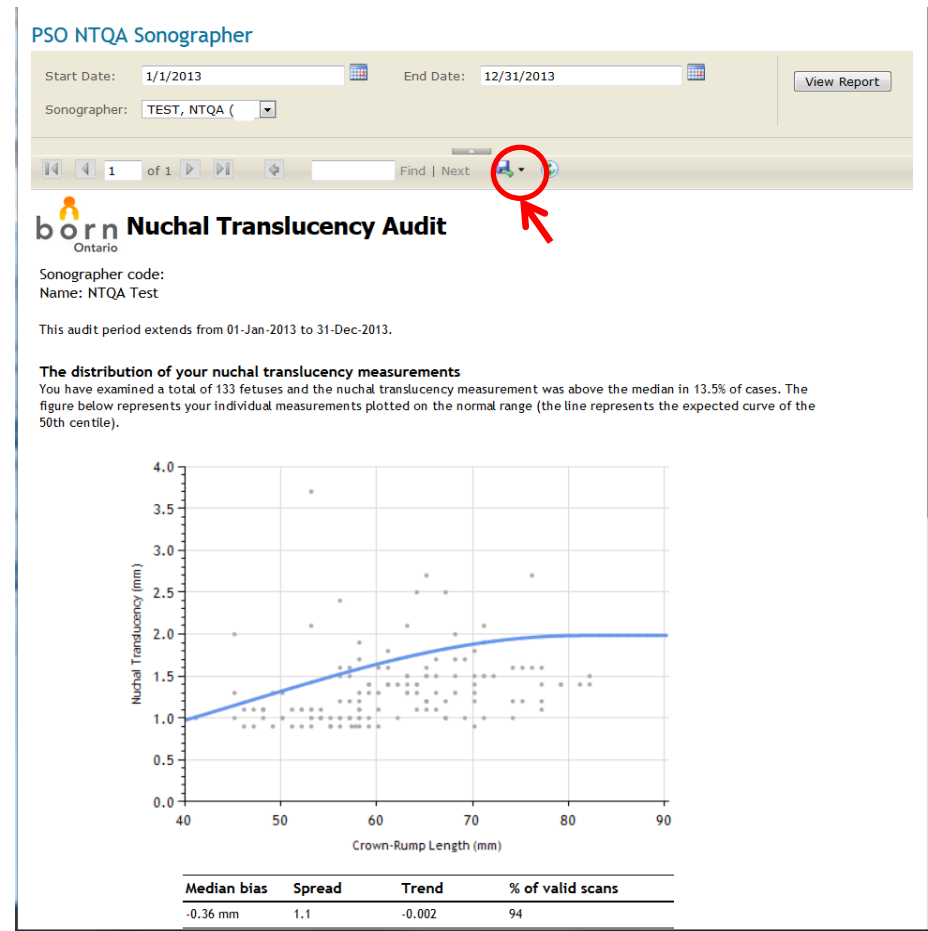

Sonographer:

- Select the timeframe (A). All NT measurements provided to any prenatal screening laboratory during that timeframe will be included in the report.  
*\* note that BORN houses NT measurement data from January 2012 onward only.*
- Select the Sonographer ID (B). The only ID that will be visible will be that of the user. The only users that will be able to access any NTQA report are the specific sonographer, as well as Prenatal Screening Quality Assurance personnel.
- Select “View Report”.

# NTQA Report

- To save and print the report – click on the export icon, choose PDF and save to your system.

# Resources available

---

- For a representation of an ideal distribution of NT measurements, please visit the BORN website at <http://www.bornontario.ca/en/special-projects/nuchal-translucency-qa---provider-registration/>
- The NT protocol and other useful resources on 1st trimester ultrasound can be found on the Fetal Medicine Foundation USA website: [www.fetalmedicineusa.com](http://www.fetalmedicineusa.com)
- You may also be interested to know that the FMF offers a free re-accreditation program along with an image audit component, which will provide feedback on your images that may help to explain measurement distribution.
